30th August 2014

To Whom it may concern.

Anna Rybnickova worked at Rivendale during the 2014 summer holidays.

We operate a busy holiday park with many short duration bookings involving a large number of arrivals & departures in many different forms of accommodation. There is also a café, pub, lodges and bedroom suites of 4 star grading with a silver award on the park which need turning around quickly to a high standard.

Anna helped with general cleaning, housekeeping, waiting on – and any other tasks required on the day. She proved a reliable, hard-working, trustworthy employee with an excellent command of English, good empathy with customers who brought an intelligent, good humoured effort to everything she was asked to do.

Above all, she has a great attitude – which would lead me to re-employ her without a moment's hesitation, probably including a wider range of more challenging tasks, which, having got to know her a little better, I am sure she would take in her stride.

I wish her all the best in the future and would recommend her services to any potential employer.
